## EXPERIENCE

### **Utah Valley University, Orem, UT— *Student Employee - NIH Lab Manager***

Jan 2021 - PRESENT

In Professor Dr. Eric Domyan's research lab, I organized our lab area and maintained lab supplies for our use. I also helped other students in the lab to learn sterile techniques and use lab equipment properly, such as pipettes and thermocyclers.

### **Utah Valley University, Orem, UT— *Student Employee - NIH Research Team Lead***

Sep 2020 - Dec 2020

After being in Professor Dr. Eric Domyan's research lab for a semester, I was able to become a Team Lead in a group analyzing a gene in pigeon pigmentation.

### **Utah State University, Logan, UT— *Biotech Research Intern***

May 2020 - Aug 2020

I participated in USU's annual SURE program and participated in Dr. Clay Isom's genetics and epigenetics lab as an intern. I was able to learn about cow embryo development and do field-to-lab acquisition, purification, and DNA sequencing of samples for cow microbiome analysis.

### **Price Municipal Corp., Price, UT— *Lifeguard***

May 2016 - Jul 2018

I monitored the safety of the pool and led swimming instructional lessons with children. I have knowledge of CPR and emergency situations.

## EDUCATION

### **Utah Valley University, Orem, Utah— working on *Biotechnology degree***

Fall 2018 - PRESENT

I am a biotechnology major currently going to school at UVU full-time. I have three years of my degree complete in Spring 2021.

### **Carbon High School, Price, Utah — *High School Diploma***

Aug 2014 - May 2018
